Piotr Napierala
Front-end Web Developer

I'm an enthusiastic programmer who worked with numerous web technologies. My core specialization lies in JavaScript frameworks, such as: React, Vue and Gatsby. I've also worked on server side using Node.js. My goal is to always write a scalable and a meaningful code, with well written documentation. I'm also a lifelong learner.

WORK EXPERIENCE

Front-end Engineer
Intracto Digital Agency

09/2020 - Present   *Herentals, Belgium*

Achievements/Tasks

- Helped developed and delivered a big project that involved working with html canvas (by using fabric.js). Created a few new implementations and features - done mostly with Vue.js and TypeScript. Created a solution, together with my teammates, for a problem that was causing a data fetch bottleneck.
- Created an implementation for Volvo site for users to save their favorite cars, while still be able to surf through the main site. Made with Vue.js framework.
- Delivered a Proof of Concept for a chrome extension as our company's internal tool. The main goal was to track the history of viewed Jira tickets, and the specifications for each one of them.
- Worked on internal tool for our PR's, by improving and implementing a 'light version' of a dashboard for keeping track of each co-workers work schedule.

Web Design Agency Owner
Ambach Creative

09/2019 - 02/2020   *Arendonk, Belgium*

My own start-up digital agency started from a passion for designing websites build mostly on Wordpress and Shopify.

Achievements/Tasks

- Worked on designing websites and logo's by using Adobe Creative Suit and Wordpress platform. Most of my work was done for friends and family. Although I wasn't able to pursue my small business further, I've enjoyed working with people and I gain some management-related knowledge as well.
