PROGRAMMING
- HTML / (S)CSS • JavaScript (React, ES6, Node.js, Gatsby.js, Redux)
- Express, Mongoose, Wordpress

DESIGN
- Adobe Illustrator, Adobe Photoshop, GIMP • Elementor

SOFTWARE
- Git/Github, Google Cloud, Heroku, Netlify, Command Line, MongoDB, Google Analytics, Visual Studio Code

PROJECTS

Ticket Market (http://ticket-market-app.xyz)

- React, Node.js, Typescript, Next.js, Kubernetes, Docker

A web app build with microservices approach. Buy, sell and create tickets for your favorite events, concerts. Each of services is build with Kubernetes and pushed up to Digital Ocean cluster.

Tech Connector (https://aqueous-falls-84738.herokuapp.com/)

- React, Node.js, Express, MongoDB

A social media platform for connecting with other developers. Make your own profile, add your education and experience. Create a new post and start socializing with others!

E-box Survey (https://powerful-sierra-89219.herokuapp.com/)

- React, Express, OAuth 2.0, Mongoose

Full stack app built with MERN Stack. Create and send surveys to multiple recipients. Get the feedback from your customers and check the results in your dashboard. Payments are done with a fake credit card through Stripe API.
